Pathways Program Applications for students new to the program

Dear Applicant:

The Pathways enrichment leadership program is offered to students in Grade 8, 9 and 10. This program offers an integrated unit of study that combines theme-based, enriched academic courses in English, Social Studies, Science and Physical Education. The pillars of the pathways program are leadership development, social responsibility, and academic excellence. Students continue to select their preferred elective course.

Overview

Students in the **Pathways Program** are scheduled together for these four courses:

- English
- Social Studies
- Science
- PE

Aside from these enriched courses, the Pathways program offers:

- fieldtrips
- leadership in the community
- outdoor education

This integrated program is focused on creating a challenging and enriched learning environment while developing the skills needed to become the strong, upstanding leaders of the future. Creativity, initiative, confidence, innovation, adaptability, effective communication skills, resilience, and an understanding of the importance of giving back to your community form the foundation of this program. The Pathways Program follows this format through to grade 10, followed by opportunities to pursue additional advanced placement (AP), enriched and honours courses in grades 11 and 12.

The Pathways program promotes a focus on leadership skills through the integration of thematic units of study, cross-curricular connections, field trips and community service. The world is changing, and the needs of our students are changing with it. Increasingly, universities (and employers) are looking for candidates that offer more than just a stellar academic record – they are looking for confident, creative and vibrant “individuals” who understand the need for “we” as opposed to “me”. The Pathways program is an ideal start for tomorrow’s leaders.

This package contains a series of application forms that you will need to complete and submit to H. J. Cambie Secondary School.
