**Request for the Administration of Medication at the School**  
The School District #38 (Richmond), in collaboration with Vancouver Coastal Health – Richmond, has guidelines in place regarding the administration of prescribed medications.

In accordance with these guidelines, non-prescription medications such as Tylenol, Advil, Benadryl, etc. will not be administered by Richmond School District staff and will not be kept at school.

For students who require prescribed medications to be administered by school staff, a Request for Administration of Medication at School (RAMS) form is necessary to be completed. This form is available at the school office, or on request, can be emailed to you at home. This RAMS form should be taken to your pharmacy so that the prescription label can be attached and then brought to your child's school along with the prescribed medication.

Each summer, all medications will be sent home. This will give you the opportunity to use the medication over the summer. At the start of each school year, you will need to bring an updated 'Request for Administration of Medication at School' form along with your child's medication.

Remember to check the expiry date before sending any medications back to school in September. You can check for expiry date reminders of emergency medication for EpiPen and Allerject on the company. Websites: [www.epipen.ca](http://www.epipen.ca) or [www.allerject.ca](http://www.allerject.ca)

If you have any questions, please the school office.
